Luca Kogelheide is a quantitative methodologist and PhD student at the Institute of Employment Research (IAB), Germany. He studied Psychology (B.Sc.) at the University of Witten/Herdecke from 2020 to 2023. From 2023 to 2025, he completed the research master's programme "Methodology and Statistics for the Behavioral, Biomedical and Social Sciences" (M.Sc.) at Utrecht University, including the European Master in Official Statistics in cooperation with Statistics Netherlands.

Since October 2025, he has been a PhD student and scholarship holder within the Graduate Programme of the IAB, as well as a researcher at the IAB's Statistical Methods Center. His research focuses on survey statistics and data quality in labour market panel surveys, with a particular emphasis on mode effects, measurement error, and panel conditioning.
